

ROLE

====

You are a senior creative engineer and portfolio designer building a one-of-a-kind, production-grade personal portfolio website using vector graphics (SVG), advanced CSS animations, GSAP, Framer Motion, and React. The output must feel like an interactive art piece that doubles as a job-winning portfolio for a fresh IT graduate from India.

MISSION

=====

Build a fully responsive, single-page portfolio for ROHITH SILAGANI, a Data Analyst graduate from Kalasalingam Academy of Research and Education, who wants to land their first IT job at

Google, TCS, and Deloitte. The portfolio must scream " Precision, Insight, and Logic " within the first 5 seconds of opening.

This is NOT a template fill. This is a custom-designed, personality-driven experience. Two students with different inputs MUST produce visually distinct portfolios -- different layouts, different motion language, different palettes.

=====

SECTION 1 -- PERSONA & IDENTITY (the soul of the portfolio)

=====

NAME : ROHITH SILAGANI

TAGLINE : Transforming Complex Noise into Actionable Business Intelligence

PERSONALITY : The Analyst (Deep focus on logic, data pipelines, and precision).

(one of: The Builder / The Analyst / The Storyteller / The Innovator /

The Architect / The Explorer / The Strategist / The Creator)

VIBE KEYWORDS : Analytical, Precise, Insightful.

UNIQUE EDGE : Bridging the gap between raw SQL/Python engineering and high-level stakeholder visualization (92% accuracy in currency forecasting).

ORIGIN STORY : My journey began at Kalasalingam Academy, where I realized that data isn't just numbers—it's a narrative. From predicting USD-to-INR exchange rates to optimizing Emergency Room patient flows, I chose this field because I find beauty in the efficiency of a well-optimized query and the clarity of a perfect dashboard.

SUPERPOWER : Developing automated ETL pipelines that slash manual overhead by 20 hours a month

PHILOSOPHY : "Clarity is the bridge between raw data and strategic victory."

=====

SECTION 2 -- VISUAL DNA (this is what makes each portfolio unique)

=====

PRIMARY COLOR : #0055FF (Data Blue)

ACCENT COLOR : #FF3E00 (Insight Orange)

BACKGROUND MOOD : **Deep Dark** (Midnight workspace feel)

(one of: Deep Dark / Warm Cream / Pure White / Midnight Blue /

Forest Green / Soft Lavender / Terracotta)

DESIGN ARCHETYPE : **Swiss Modernist** (Asymmetric grids, bold Helvetica-style type, and red accents).

(one of -- this dictates the ENTIRE layout language)

- Brutalist Minimal : raw, oversized type, sharp edges, monochrome
- Editorial Magazine : serif headlines, grid columns, art-direction feel
- Cyber Neo : neon glows, terminal aesthetic, glitch effects
- Soft Glassmorphism : frosted blur, pastel gradients, calm energy
- Y2K Retro Tech : chrome, beveled buttons, playful pixels

- Swiss Modernist : Helvetica, asymmetric grids, red accents
 - Organic Bauhaus : primary shapes, hand-drawn feel, warm tones
 - Generative Art : flow fields, particle systems, mathematical beauty
- TYPOGRAPHY PAIR : Tech : Space Grotesk + Space Mono (engineering)

- Serif+Mono : JetBrains Mono + Fraunces (intellectual)
- Display+Sans : Clash Display + Inter (modern bold)
- Editorial : Playfair + IBM Plex Sans (premium)
- Tech : Space Grotesk + Space Mono (engineering)
- Humanist : Sohne + Tiempos (warm professional)

MOTION LANGUAGE : **Mechanical & Precise** (Sharp 90-degree snaps, robotic transitions, no-nonsense easing).

- Snappy & Punchy : fast 200ms transitions, spring physics
- Smooth & Cinematic : slow 800ms eases, parallax, fade-and-rise
- Glitchy & Raw : sudden cuts, scramble text, terminal flicker
- Elegant & Floaty : soft drifts, subtle hover lifts, gentle scrolls
- Mechanical & Precise : robotic clicks, sharp snaps, no easing

=====

SECTION 3 -- REQUIRED PORTFOLIO SECTIONS (build all of these)

=====

1. HERO SECTION (the first 5 seconds)

- Massive name display: ROHITH SILAGANI
- Custom-generated SVG avatar (NO photo upload) styled to match the personality archetype -- abstract, symbolic, geometric or organic
- Animated tagline that types / morphs / glitches based on MOTION_STYLE

- One ambient looping background animation (particles, waves, gradients, grid distortion) that matches DESIGN_ARCHETYPE

- Custom-illustrated scroll indicator (NOT generic "scroll down" text)

2. ABOUT ME -- "MY ORIGIN"

- Long-form story styled like a magazine feature

- Embedded SVG timeline infographic of personal journey

- Sidebar with quick facts:

- * Year I started coding : 2021

- * Languages I think in : Python, SQL, DAX, STATISTICS.

- * Currently learning : FULL Stack Developer using AI Tools

- * Based in : Hyderabad, Telangana

- * Hobbies outside code : Hackathon (silver medalist) & Football (Gold Medalist)

3. SKILLS -- "MY ARSENAL"

- Interactive radial / hexagonal SVG skill chart (animated on scroll)

- Hover interactions reveal proficiency level + projects using that skill

- Group as: Languages / Frameworks / Tools / Soft Skills

- Skills to plot: **Python (Pandas/NumPy): 5/5**

SQL (Joins/Subqueries): 5/5

Power BI (DAX): 4/5

Machine Learning: 4/5

Data Cleaning/ETL: 5/5

Tableau: 3/5

Excel (Pivot/VLOOKUP): 5/5

Analytical Thinking: 5/5

4. PROJECTS -- "WHAT I'VE BUILT"

- Show 3 projects as interactive cards

- Each card flips / slides / morphs on hover (motion matches MOTION_STYLE)

- For each project provide:

Project 1: USD/INR Predictor | 92% Accuracy forecasting model.

Tech: Scikit-learn, Matplotlib.

Live: {{PROJECT_1_LIVE_URL}} | Code: {{PROJECT_1_GITHUB}}

Project 2: **ER Survival Clock** | Processing 9,216 records to optimize hospital flow.

Tech: Excel, Power BI, DAX.

Live: {{PROJECT_2_LIVE_URL}} | Code: {{PROJECT_2_GITHUB}}

Project 3: **Hotel Recommendation** | Published research on ML-driven UX.

Tech: Random Forest, Naive Bayes.

Live: {{PROJECT_3_LIVE_URL}} | Code: {{PROJECT_3_GITHUB}}

- Add a generated SVG illustration for each card representing the project's core idea (abstract, never stock images)

5. EXPERIENCE / LEARNING JOURNEY

- Vertical scrollable timeline with custom SVG markers

- Entries: Junior Data Analyst Intern | Vangrove Tech Private Limited and AI Full Stack Developer

- Animate each entry into view as the user scrolls

6. INTRA-PERSONAL EDGE (this is what makes me human)

- A short interactive section that reveals soft skills

- Three traits, each with a small interactive SVG demo:

Trait 1: **Analytical Precision**

Trait 2: Curiosity

Trait 3: Resilience

7. INTER-PERSONAL EDGE (how I work with others)

- Mini quote section with testimonials (real or aspirational)

- Lead Analyst (Aspirational)
- Project Lead (Aspirational)

8. CERTIFICATIONS & ACHIEVEMENTS

- Animated certificate gallery with hover reveal
- Oracle Cloud Infrastructure 2023 Certified Data Science Professional
- CISCO Data Analytics Essentials Certification
- Online Hotel Recommendation Certification
- Application of Data Analytic Techniques for Online Hotel Recommendation
- ACM Hackathon Certificate

9. NOW PAGE (what I'm doing right now)

- "Currently building": Emergency Response Optimization Analytics (Survival Clock)
- "Currently reading": Advanced SQL Query Optimization
- "Currently dreaming about": Deploying ML models that impact real-time financial markets.
- Live "last updated" timestamp animated in

10. CONTACT -- "LET'S BUILD SOMETHING"

- Animated email reveal: rohithsilagani@gmail.com
- Phone (optional) : 7416787273
- LinkedIn : <https://www.linkedin.com/in/rohith-silagani-b0582026a/>
- GitHub : <https://github.com/rohithsilagani>
- Twitter/X (optional) : {{TWITTER_URL}}
- Resume download CTA with a custom SVG button

=====

SECTION 4 -- TECHNICAL & INTERACTION REQUIREMENTS

=====

- Stack: React + Vite + TailwindCSS + Framer Motion + GSAP + Lenis (smooth scroll)

- All illustrations: custom inline SVG generated by you. NO stock images.
- All icons: lucide-react.
- Cursor: custom SVG cursor that reacts to interactive elements.
- Page transitions: smooth, scroll-triggered, performant (60fps minimum).
- Dark/Light mode toggle that respects DESIGN_ARCHETYPE.
- Fully responsive: 360px mobile -> 1440px desktop.
- Accessibility: keyboard nav, ARIA labels, prefers-reduced-motion support.
- Performance: Lighthouse 90+, total bundle under 500KB gzipped.
- SEO: proper meta tags using ROHITH SILAGANI and DATA ANALYST
- Hosting target: Vercel free tier, deploy-ready.

=====

SECTION 5 -- NON-NEGOTIABLE RULES

=====

- X NO generic templates. Every section must reflect the personality inputs.
- X NO stock photos. NO Unsplash. NO clip art. Only generated SVG.
- X NO Lorem Ipsum anywhere. If a placeholder is empty, ASK before defaulting.
- X NO copy-paste from any famous portfolio. Make it original.
- X NO clutter. Whitespace is a feature.
- * DO add at least 3 unexpected micro-interactions (delight moments).
- * DO write subtle copy that sounds like the student, not a marketing brochure.
- * DO add an Easter egg (Konami code, hidden message, secret hover) tied to the student's UNIQUE_EDGE.

=====

SECTION 6 -- DELIVERY

=====

- Working deployed URL on Vercel
- Clean folder structure with /sections, /components, /motion, /data, /assets
- README with setup, deploy, and "how to update content" instructions
- One short Loom-style guided tour comment in the code explaining the design

Now build it. Start with the Hero and About sections -- if those don't feel uniquely like ROHITH SILAGANI, the rest doesn't matter.
